Great movies are just the beginning...

Now that HBO has a 24-hour programming day, you will notice "HBOOnly" referring to many hit movies on our schedule. These are movies that you won't see anywhere else on national television while they're playing on HBO.

Movies like *The Jazz Singer* in January and *Tribute; Fort Apache, The Bronx* and *Charlie Chan and the Curse of the Dragon Queen* this month. In coming months we'll have many more HBOOnlys such as *Flash Gordon, Escape from New York* and *Take This Job and Shove It*.

HBO has always had exclusive specials and sports programs. Like this month's *SRO: Simon and Garfunkel*. Series such as *Consumer Reports presents* and *What on Earth?* Live and same-day sports events like the Sugar Ray Leonard title fight.

HBO also offers adult movies late into the night and early morning. Yes, there is no question about it: great movies are just the beginning on HBO.
